

INCIDENT MANAGEMENT SITUATION REPORT
SATURDAY JULY 19, 2003 - 0800 MDT
NATIONAL PREPAREDNESS LEVEL 3

CURRENT SITUATION:

Initial attack activity was moderate in Eastern Great Basin, Rocky Mountain, Southern California, and Southwest Areas, and light elsewhere. Nationally, 178 new fires were reported. Thirteen new large fires were reported, one each in the Southwest, Eastern Great Basin, Northwest, Southern California, and Western Great Basin Areas, four each in the Northern Rockies and Rocky Mountain Areas. Nine large fires were contained, one each in the Southern California and Western Great Basin Areas, two each in the Rocky Mountain and Northern Rockies Areas, and three in the Southwest Area. Very high to extreme fire indices were reported in Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oklahoma, Oregon, Texas, Utah, Washington and Wyoming.

SOUTHWEST AREA LARGE FIRES:

KINISHBA, Fort Apache Agency, Bureau of Indian Affairs. A Type 1 Incident Management Team (Humphrey) is assigned. This fire is in ponderosa pine, woodlands and chaparral, two miles west of Whiteriver, AZ. Isolated torching and up hill runs on the southern slopes in the east side canyons of Big Canyon were observed. Crews are holding containment lines and are conducting burn out operations. Evacuation orders have been lifted for all communities. Structure protection is in place for 150 threatened residences.

SPRUCE COMPLEX, Gila National Forest. A Type 2 Incident Management Team (Bateman) is assigned. This complex is composed of the Spruce, Silver, Nabours, and Parallel fires and is burning in brush, ponderosa pine and mixed conifer nine miles east of Glenwood, NM. No new information was reported.

MOLINA COMPLEX, Santa Fe National Forest. A Type 2 Incident Management Team (Philbin) is assigned. This complex, comprised of the Capulin and Molina fires, is eight miles east of Cundiyo, NM. Backing fire with moderate torching was observed. Crews are building and holding fireline on the west flank.

BLUE RIVER COMPLEX, Apache-Sitgreaves National Forest. A Type 2 Incident Management Team (Rios) is assigned. This complex, comprised of the Steeple, Largo and Thomas fires, is 18 miles south of Alpine, AZ. Minimal fire behavior was observed in ponderosa pine, mixed conifer, pinyon, brush and grass. Crews are holding containment lines. Structure protection is in place for ten threatened residences.

DRY LAKE COMPLEX, Gila National Forest. A Fire Use Management Team (Rath) is assigned; the Team is also managing the Turnbo fire. This lightning caused Wildland Fire Use complex, comprised of the Sycamore, Moonshine and Granny fires, is 27 miles northwest of Silver City, NM. The primary fuels involved in these fires are pinyon pine, juniper, ponderosa pine and grass. The complex is being managed to accomplish multiple resource objectives. Low fire activity was observed. Personnel are monitoring fire spread, holding and improving fireline.

TURNBO, Gila National Forest. A Fire Use Management Team (Rath) is assigned. This fire is in mixed conifer with continuous pine stringers, 37 miles northwest of Silver City, NM, and is being managed with a confinement suppression strategy. Low fire activity was observed. Crews are holding and improving fireline. Increase in acreage is due to more accurate mapping.

MAPLE, Apache-Sitgreaves National Forest. This fire is in grass, brush and ponderosa pine, 25 miles northeast of Clifton, AZ. The fire is being managed with a confine/contain strategy. No new information was reported. This will be the last report unless new information is received.

DIVIDE, Gila National Forest. This fire is seven miles southeast of Aragon, NM. Moderate fire behavior was observed in grass, ponderosa pine and mixed conifers. Crews are conducting burn out operations.

GRANITE, Gila National Forest. This fire is 13 miles northwest of Hillsboro, NM. Minimal fire behavior was observed in mixed conifer. Personnel are building containment lines.

SKELETON, Arizona State. This fire is in desert shrub, brush and open grassland, 15 miles east to northeast of Douglas, AZ. The fire is being managed in a confine/contain strategy and is being monitored by aerial reconnaissance.

GOVERNMENT, Cibola National Forest. This fire is in ponderosa pine, juniper and pinyon, 6 miles north of Datil, NM. Active burning in the interior was observed. Crews are holding fireline and mopping up.

EASTERN GREAT BASIN AREA LARGE FIRES:

TOBIAS, Salmon-Challis National Forest. A Type 2 Incident Management Team (Van Bruggen) is assigned. This fire is in grass, sage and mixed conifer with dead and down fuel, 18 miles north to northwest of Leadore, ID. Due to favorable weather conditions, fire growth was moderate. Crews are constructing fireline. Structure protection is in place for two threatened residences.

BLACKWALL, Salmon-Challis National Forest. A Type 2 Incident Management Team (Kechter) is assigned. This fire is in mixed conifer with heavy ground fuel, 32 miles north of Salmon, ID. Active fire behavior with spotting and crown fire runs was observed. Crews are improving containment lines.

SUNSHINE CANYON, Salt Lake Field Office, Bureau of Land Management. This fire is 5 miles west of Five Mile Pass, UT. Torching, crowning, and running were observed in timber and grass.

Crewing are constructing fireline. Fifty residences and one commercial property are threatened; structure protection is in place.

EAST TABLE, Bridger-Teton National Forest. A Type 2 Incident Management Team (Broyles) is assigned. This fire is ten miles east of Alpine, WY. Some interior burning with isolated torching, creeping ground fires, and one new spot was observed. Crews are constructing containment lines and mopping up.

BULLDOG, Richfield Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Brunner) is assigned. This fire is in oak, mountain mahogany, juniper and pinyon pine, 17 miles north of Ticaboo, UT. Moderate fire behavior with isolated torching and small runs was observed. Crews are improving containment lines and conducting burn out operations. One commercial property and several out buildings are threatened; structure protection is in place.

FARMINGTON, Wasatch-Cache National Forest. This fire is one-half mile east of Farmington, UT. Minimal fire behavior was observed in oak brush, cheat grass, spruce and fir. Personnel are patrolling and monitoring.

ROCKY MOUNTAIN AREA LARGE FIRES:

GRAMM COMPLEX, Medicine Bow National Forest. A Type 2 Incident Management Team (Mullenix) is assigned. This complex, comprised of Gramm and Six Mile fires, is 30 miles southwest of Laramie, WY. Low fire activity was observed in ponderosa pine. Crews and dozers are constructing containment lines. Structure protection is in place for 113 threatened residences.

BALCONY HOUSE COMPLEX, Mesa Verde National Park. A Type 2 Incident Management Team (Szczepanik) is assigned. This complex is comprised of Mocassin, White, Balcony and Park fires. Active fire behavior was observed in pinyon pine and juniper fuels. Crews are mopping up the perimeter and monitoring the fire spread to the north and south.

HORN CANYON, La Plata County, CO. This fire is 12 miles southwest of Hesperus, CO. Creeping with interior torching was observed in pinyon, juniper, grass and oak brush. Crews are building and holding containment lines. Structure protection is in place for ten threatened residences.

DEEP LAKE, Shoshone National Forest. This fire is in mixed conifer and grass, 30 miles northwest of Cody, WY. Active fire behavior with a major run to the east was observed. Personnel are constructing containment lines and burning out. Structure protection is in place for four threatened residences.

BOLT, Southern Ute Reservation, Bureau of Indian Affairs. This fire is 9 miles southwest of Pagosa Springs, CO. Active fire behavior with crowning, torching, and rapid spread was observed in ponderosa pine, mixed conifer and oak brush. Crews and dozers are building, improving and holding containment lines. Structure protection is in place for twelve threatened residences.

JB, Western Slope Center, Bureau of Land Management. A Type 2 Incident Management Team (Saleen) has been ordered. This fire is 42 miles southwest of Grand Junction, CO. Thunderstorm driven fire with 50 foot flame lengths was observed in grass, sage, oak brush and ponderosa pine. Personnel disengaged from suppression activities yesterday afternoon due to safety concerns. Structure protection is in place for four threatened residences.

DOUGLAS, Crook County, WY. This fire is in grass, sagebrush and juniper, 13 miles southwest of Sundance, WY. Creeping with occasional torching was observed. Crews are holding and improving containment lines. Structure protection is in place for 15 threatened residences.

BEAR CREEK, San Juan National Forest. A Fire Use Management Team (Clark) is assigned. This Wildland Fire Use fire is in spruce and fir, 5 miles northeast of Vallecito, CO. The fire is being managed for resource benefit. Slow burning through dead and down fuels was observed. Crews are holding fireline on the south flank.

BRUSH MOUNTAIN, Garfield County, CO. A Type 2 Incident Management Team (Blume) is assigned. This fire is in spruce, fir, pinyon pine, juniper, brush and grass, 30 miles north of Grand Junction, CO. No further information was received.

MORGAN BOTTOM, State of Colorado. This fire is in sage, 20 miles north of Meeker, CO. Active fire behavior with runs pushed by erratic winds was observed. Engine crews are improving containment lines.

NORTHWEST AREA LARGE FIRES:

MCGINNIS FLATS, Colville Agency, Bureau of Indian Affairs. A Washington Interagency Incident Management Team has been ordered. This fire is one mile north of Keller, WA. Considerable rate of spread with little wind was observed in pine and grass.

CLARK, Willamette National Forest. A Unified Command has been established between a Type 2 Incident Management Team (Gardner) and An Oregon Department of Forestry Incident Management Team (Labhart). This fire is in understory and timber with dead and down fuels, ten miles northeast of Lowell, OR. Active fire behavior with running and spotting was observed. Crews are improving containment and contingency lines on the north, northwest and east flanks and are conducting burnout operations. Structure protection is in place for 5 threatened residences.

FAWN PEAK COMPLEX, Okanogan-Wenatchee National Forest. A Type 1 Incident Management Team (Lohrey) is assigned. This complex is comprised of the Fawn Peak, Sweetgrass and Farewell fires; the Fawn Peak and Sweetgrass fires have been controlled. The Farewell fire is in sub-alpine fir with heavy dead and down timber, 13 miles northwest of Winthrop, WA. Active fire behavior was observed. Crews are constructing direct fireline along the northwest flank and mopping up on the south and east flanks. Structure protection is in place for 9 threatened residences.

NORTHERN ROCKIES AREA LARGE FIRES:

WEDGE CANYON, Flathead National Forest. A Type 2 Incident Management Team (Sandman) has been ordered. This fire is 20 miles east of Eureka, MT. Spotting up to a mile and a half to the east was observed.

HIDDEN LAKE, Beaverhead/Deerlodge National Forest. A Type 2 Incident Management Team (Chrisman) has been ordered. This fire is in sub-alpine fir, 4 miles northeast of Polaris, MT. Torching, spotting and large runs on steep slopes were observed.

SLIMS, Nez Perce National Forest. A Type 2 Incident Management Team (Benes) is assigned. This fire is 35 miles east of Grangeville, ID. No further information was received.

BIG COULEE, Miles City Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Grey) has been ordered. This fire is in grass, ponderosa pine and juniper, 30 miles northwest of Jordan, MT. Extreme fire behavior with torching was observed. Crews are building handline. Structure protection is in place for seven threatened structures.

AMETHYST, Yellowstone National Park. This fire is in old growth timber, litter and understory, 25 miles southeast of Mammoth Hot Springs, WY. Active burning and short range spotting were observed. Crews are constructing fireline and containing spot fires. Crews are construction fireline with support from aerial resources.

MICKEY BUTTE, Charles M. Russell National Wildlife Refuge. This fire is in grass, juniper and timber, 50 miles south of Malta, MT. Crown fire runs were observed. Crews completed MIST tactics on the west flank and are building handline on the east flank.

BLUE RIDGE, Lewistown Field Office, Bureau of Land Management. This fire is 35 miles northeast of Jordan, MT. No further information was received.

SOUTHERN CALIFORNIA AREA LARGE FIRES:

COYOTE, Monte Vista Unit, California Department of Forestry and Fire Protection. This fire is in chaparral, twenty miles north of Julian, CA. Active fire behavior to the south and southeast was observed. Crews are constructing fireline and focusing efforts on the south and southeast flanks. Structure protection is in place for 100 threatened residences. Damage assessment is underway to determine the extent of properties lost.

EUCALYPTUS, San Benito-Monterey Unit, California Department of Forestry and Fire Protection. This fire is in heavy brush and oak woodland, five miles east by northeast of Del Rey Oaks, CA. No further information was received.

SALT, Amador-El Dorado Unit, California Department of Forestry and Fire Protection. This fire is in timber with slash understory, 17 miles west of Jackson, CA. Active fire behavior with spotting and individual tree torching was observed. Crews are constructing fireline on the head and west flank.

LIGHTNING, San Bernardino County FD. This fire is in brush and trees in a river bottom area, 10 miles north of Needles, CA. Personnel are patrolling the perimeter.

SHELL	NV	NNS	700	100	---	104	2	12	0	0	NR

NNS = Northern Region, Nevada Division of Forestry

OUTLOOK:

Fire Weather Watches: In south-central Montana for dry thunderstorms and low humidities and in Idaho portions of Eastern Great Basin Area for dry lightning.

Weather Discussion: High pressure will be centered over the central Colorado/Utah border today, with moisture wrapping around the edge of the high throughout the west. The remnants of Claudette will continue to weaken and rotate around the high as well, slowly moving across southern California. Moisture and instability will increase today in the northern California mountains, the Great Basin, eastern Oregon and southwest Montana. This will lead to isolated dry lightning strikes. A mixture of wet and dry thunderstorms will continue over higher elevations of central Arizona and across most of the Rocky Mountain Area.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
EASTERN GREAT BASIN AREA Widely scattered dry thunderstorms in Idaho. Scattered wet and dry thunderstorms in Utah and the Bridger-Teton. Strong gusty winds near thunderstorms, especially in Idaho.	Idaho, Bridger-Teton: 70 to 85 mountains, 86 to 101 valleys. Utah and Arizona Strip: 75 to 90 higher elevations, 90 to 103 valleys.	Idaho, Bridger-Teton: 15 to 35% mountains, 6 to 18% valleys. Utah, Arizona Strip: 15 to 30% mountains, 12 to 18% valleys.	Gusts to 50 mph near storms in Idaho and gusts to 40 mph near storms elsewhere. Otherwise expect light and variable winds.
NORTHERN CALIFORNIA AREA Mostly sunny, with cumulus developing over the ridges in the afternoon. A slight chance of afternoon and evening mainly dry thunderstorms over the higher terrain of the Northwest, Northeast, Northern Sierra and eastside PSAs.	Mid 60s to mid 70s near the coast, mid 80s to mid 90s higher terrain, and mid 90s to 107 inland valleys.	50% or more along the coast, 18 to 28% higher terrain, 8 to 18% inland valleys, and 4 to 13% east of the Sierra-Cascade Crest.	Variable under 12 mph, mainly southeast to southwest. Peak afternoon gusts southwest about 17 to 27 mph over Cascade/Sierra crest eastward.
NORTHERN ROCKIES AREA Isolated mainly dry thunderstorms over southwest Montana... scattered over south-central and southeast Montana	West of the Divide: 95 to 105 East of the Divide: 85 to 100	West of the Divide: 10 to 15% East of the Divide: 10 to 20%	West of the Divide: West 5 to 15 mph East of the Divide: North to west 5 to 15 mph
NORTHWEST AREA Slight chance of isolated afternoon and evening dry thunderstorms in parts of eastern Oregon.	Mostly 80s and 90s with some low 100 readings east of the Cascades.	West of Cascades: 35% in the north to 20% south. Eastside: 5 to 15%.	No significant wind. Generally west to northwest 5 to 15 mph. Gusty in the afternoon.
ROCKY MOUNTAIN AREA Partly Cloudy. Isolated to scattered afternoon and evening thunderstorms. A little cooler.	Mid 80s to lower 90s lower elevations, 75 to 85 in the mountains.	10 to 20% western Colorado and south central Wyoming. 25 to 35% elsewhere	Variable 5 to 15 mph, except for south to southeast 10 to 20 mph over the plains.
SOUTHERN CALIFORNIA AREA Mostly cloudy with scattered showers and a chance of thunderstorms, mainly over mountains and deserts, but still a chance anywhere.	70 to 85 coastal areas. 80 to 95 mountains. 85 to 100 valleys. 100 to 108 upper desert. 105 to 115 low desert.	10 to 20% deserts. 15 to 30% mountains. 20 to 35% valleys.	Southeast to southwest 5 to 15 mph.

WESTERN GREAT BASIN AREA Partly cloudy skies in the morning with increasing afternoon cloudiness and a good chance of afternoon showers and thunderstorms.	Upper 80s to near 100 valleys, 80 to 90 mountains, with a maximum of 104 in the southern deserts.	12 to 20% at lower elevations, 15 to 30% in upper elevations and 25 to 35% in the Sierras.	Generally upslope/up canyon in the afternoon at 8 to 15 mph.
--	---	--	--

AIRCRAFT AND PILOT CARDING

Every aircraft and pilot used in support of a Federal wildland fire mission must have a current Aircraft or Pilot Card. The card must be held in the aircraft or with the pilot, and give specific authorization to do the mission being requested.

- These missions could be all, one, or any number of, missions as follows:
 - Air attack (Level I, Level II, Level III)
 - Reconnaissance
 - Fire surveillance
 - Water bucket
 - Helitorch
 - Cargo
 - Longline
 - Others

- Every pilot who flies a properly carded aircraft must possess a current Interagency Airplane or Helicopter Pilot Qualification Card that gives specific authorization to fly the type of mission being requested and for the specific type of aircraft being used for the mission. These missions could be all, or any number of, missions as follows:
 - Air attack
 - Reconnaissance
 - Fire surveillance
 - Low-level
 - Paracargo
 - Mountain/Remote airstrips
 - Smokejumper
 - Longline
 - Others

- Before the aircraft and pilot can be used for a specific mission, the aircraft must be specifically listed on a valid and current contract for the type of work being performed.
- A copy of the contract must be onboard the aircraft.
- Each user of the aircraft and pilot has the authorization to physically inspect the Aircraft Data Card, the Interagency Airplane or Helicopter Pilot Qualification Card, and the contract. If any one of these three are not available for inspection, the mission must be cancelled or at least postponed until the authorizations of the aircraft, pilot, or contract can be determined.
- Pilots have very specific and closely monitored duty time and flight time limitations that users must understand and adhere to:
 - 14-hour duty day
 - 8 hours flight time per day
 - 2 days off in 14 calendar days
